The Organizer Adobe refers to the program that arranges your images, selects those that you want to work on, and then offers you a place to work — the Organizer window — as shown in Figure 1-3. You can work through projects (groups) or take advantage of the automated Clean Up command. Organizer is also the place you put your edited images, whether you use a hard drive or a folder on your computer's desktop. If you create custom folders to store your images, you can create and place them in the Organizer window. The Organizer can be customized and

---

can even work from a drive on a server. The key is the Custom Menu, which enables you to create your own custom function and assign it to any menu item you want. Chapter 5 covers Customizing Photoshop. Figure 1-3: The Organizer is where you work with and organize your images.

LacZ gene expression is depressed during the expression of cellular differentiation in differentiating rat myoblasts. The expression of the beta-galactosidase gene (lacZ) in a previously established in vitro model of differentiation of rat myoblasts was studied. Expression of the lacZ gene was analyzed in myoblasts which were induced to differentiate by adding all-trans-retinoic acid to the growth medium. Several developmental events were studied: (1) retention of myoblasts in the G1 phase of the cell cycle, (2) myotube formation, and (3) the expression of contractile proteins

---

(myosin heavy chain and actin). The morphology of both myoblast aggregates and myotube aggregates was studied by phase contrast microscopy and electron microscopy. The expression of the lacZ gene was also investigated by in situ hybridization. A delay in the expression of the lacZ gene was observed during the expression of the differentiation process. The number of lacZ-positive cells peaked at day 4 after the addition of all-trans-retinoic acid to the growth medium. A progressive decrease in the number of lacZ-positive cells was observed between days 5 and 8. No lacZ mRNA was detected at day 6, when

---

most of the cells in the culture formed myotubes. In addition, the timing of expression of the myosin heavy chain and actin genes correlated with that of the lacZ gene expression. We conclude that this model is suitable for the study of cellular differentiation as well as the regulation of its expression./\* \*

Novartis calls for end to Yemen war  
Frankfurter Allgemeine Zeitung:  
Novartis demands the halt of war in  
Yemen and condemns the use of  
civilian casualties. In an open letter,  
the Swiss pharmaceutical company  
calls on the international  
community to make a “solemn  
commitment” to respect human  
rights. The letter was sent by  
counsel in Düsseldorf to the Swiss

---

ombudsman, which is responsible for overseeing international human rights treaties. The company asks other pharmaceutical companies to join in. “We believe there is no justification for the current slaughter and destruction of Yemen,” the company said. “Civilian casualties can have no justification. Human rights must be protected.” The company called for the war to be brought to a halt. The letter points out that Novartis is an active contributor to the most important global civil society and public policy organisations, including the ICRC, the Council of Europe, the World Health Organization, and the World Bank.

---

The company currently produces and distributes medicines to 13 million people. The war in Yemen is the world's worst humanitarian crisis, according to humanitarian organisations. Novartis joined a call by Germany, France, Great Britain and the US earlier this month for an end to the war. For the first time in three years and the first time ever in North America, the No. 1 team will play at the same venue in the same series. In what will be the best game in any sport this weekend, the Boston Bruins will take on the Vancouver Canucks at Rogers Arena. The teams have not met in the postseason since a series against the Columbus Blue

---

Jackets in 2012. While the last time they met was in the first round of the 2009 playoffs, that series was played at the old Boston Garden.

Game 1 | Bruins vs. Canucks If the Canucks want to go on to win the series, they need to solve the biggest weakness they have: scoring goals. Boston has scored 12 goals in three games thus far in this first-round series, while Vancouver has not been able to put more than five in any of the three games.

Vancouver won the last meeting between the two teams in the 2012 first-round matchup 5-2. But the Bruins have been on a run of scoring lately, and that's been no fluke. They have the NHL's highest-
